SKILLS

MOBILE
Flutter, Dart, Android, iOS, cross-platform development

ARCHITECTURE
Clean Architecture, BLoC, modular architecture, state management

NETWORKING
REST APIs, WebSockets, SSE, caching, real-time data sync

PLATFORM
Firebase, push notifications, deep linking, Git, CI/CD, App Store and Google Play

PERFORMANCE
Rendering and memory optimization, performance profiling

DOMAIN EXPERIENCE
FinTech, trading platforms, payments, blockchain

LANGUAGES

English - Professional
Serbian - Native
Hungarian - Understanding

EDUCATION

University of Novi Sad
Bachelor's Degree, Graphics Engineering

PROFILE

Senior Mobile Engineer with 8+ years of experience building high-quality Flutter applications used by millions of users. Experienced in designing scalable mobile architectures, developing real-time features, integrating complex APIs, and optimizing performance across iOS and Android platforms. Passionate about building reliable, user-focused products while collaborating closely with cross-functional teams to deliver production-ready software.

EXPERIENCE

Trojan Trading

Apr 2025 - Oct 2026

Senior Mobile Engineer

- Develop high-performance mobile applications focused on real-time data and low-latency user experiences.
- Build streaming data pipelines using REST APIs, WebSockets and Server-Sent Events.
- Optimize rendering performance and state management for highly interactive screens.
- Diagnose production issues and improve application responsiveness.
- Collaborate with backend, product, QA and design teams to deliver production features.

Solflare Wallet

May 2022 - Apr 2025

Senior Mobile Engineer

- Built complex mobile features for a consumer application serving over 4 million users.
- Developed transaction workflows, portfolio management, notifications, deep links and real-time synchronization.
- Integrated multiple third-party REST APIs and streaming services.
- Reworked caching and rendering pipelines, reducing screen load times by approximately 35%.
- Improved reconnect handling, increasing crash-free sessions to 99.9%.

BrightMarbles

Jul 2018 - May 2022

Mobile Developer

- Delivered end-to-end Flutter applications for international clients across multiple industries.
- Designed scalable application architecture from concept through production.
- Implemented authentication, API integrations, push notifications and platform services.
- Collaborated with clients, designers, backend engineers and QA throughout the development lifecycle.
